Grass Mixtures for Sunny Places

Turf-Maker

Highest quality lawn seed available anywhere. Blended to produce fine permanent lawns. Contains Certified Colonial Bent, Creeping Red Fescue, heavyweight Kentucky Blue Grass and Fancy Red Top. Lb. \$1.80, 3 lbs. \$5.30, 5 lbs. \$8.70, 25 lbs. \$42.75, 50 lbs. \$84.00.

McArdle's Special. Our own special mixture particularly adapted to soil conditions in this locality. Possesses exceptional staying qualities and produces a rich green lawn. Lb. \$1.50, 5 lbs. \$6.95, 25 lbs. \$33.50, 100 lbs. \$130.00.

Sunilawn. Although Sunilawn has a rougher texture than the higher-priced mixtures, we consider it very practical. It grows well under rough soil conditions and contains white clover, which we highly recommend. Lb. \$1.25, 5 lbs. \$5.85, 25 lbs. \$28.75, 100 lbs. \$110.00.

Grass Mixtures for Shady Places

Turf-Maker

FOR SHADE

The perfect companion for Turf-Maker. Blended of the finest shade-tolerant grasses. Contains Creeping Red Fescue, Poa trivialis, Chewings Fescue and Fancy Red Top. Lb. \$1.80, 3 lbs. \$5.30, 5 lbs. \$8.70, 25 lbs. \$42.75, 50 lbs. \$84.00.

McArdle's Shady. Another one of our special mixtures particularly adapted to shady areas in this vicinity. Contains Fescue, Kentucky Blue Grass and Rye Grass. Lb. \$1.50, 5 lbs. \$6.95, 25 lbs. \$33.50, 100 lbs. \$130.00.

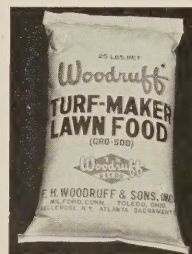

Town of Greenwich Mixture for Sun or Shade

Same formula that is used in the beautiful parks of the Town of Greenwich. Because of its high fescue content it is adaptable to shade as well as sun. It is especially good to fight crabgrass. This grass mixture was first offered by us two years ago, and the resulting turf was outstanding. All who tried it were very much satisfied. The best grass is the least expensive when you consider the high cost of reseeding and renovating. Lb. \$1.60, 5 lbs. \$7.75, 25 lbs. \$38.00, 100 lbs. \$150.00.

GRUBS OF JAPANESE BEETLE

Damaged turf appears to be suffering from lack of water, turns brown in irregular patches. The grass is severed at roots and can be peeled off. Use Scotts Pest Control to kill these grubs.

Turf-Maker Lawn Food.

F. H. Woodruff & Sons have found that an analysis of 10-6-4 feeds grass properly throughout the growing season. Nitrogen, the fertilizer element that induces luscious green leaf growth, predominates in this fertilizer. One pound of Turf-Maker Lawn Food is required for each 100 sq. ft. of lawn area, or 500 lbs. per acre. A fertilizer distributor will do an even, economical job. 25 lbs. \$2.20, 50 lbs. \$3.90.
